

AMASYSTEMS

GSM/GPS vehicle protection

Stay tuned with your vehicle, wherever you are..

The AMA EASY GSM/GPS alarm is an autonomous alarm system. It will send a sms to a defined cell phone to inform you about every unwanted approach of your vehicle and it traces the vehicle thanks to the built-in GPS function. The position will be sent to a programmed cell phone number. Cell phone number and password are programmable by sms.

The AMA EASY has a built-in GSM dialer and GPS module.

Easy to install and a low current consumption.

Protects against shocks and lift up thanks to the built-in omnidirectional movement sensor.

Battery monitoring by sms.

The location of the vehicle will be sent by sms.

Automatic arming when switching off the ignition key.

Only 3 wire installation.

TECHNICAL SPECIFICATIONS:

1. Power supply: 8 to 20 VDC.
2. Wiring loom: length 1.5 meter, fused with 2A.
3. Consumption: 8 to 10 mA standby and 20 mA to 2A (peak) in alarm phase.
4. Built-in LI-ION charger 4.2 V - 120 mA.
5. Back-up battery: LI-ION POLYMER 3.7V - 720 mAh.
6. Dimensions: L=92mm x W=50mm x H=23mm
7. GPS module: SiRF star III
8. GSM module: Tri-band (900/1800/1900Mhz)
9. Waterproof housing: IP66
10. Homologation:  6 03 0222
11. CE/RoHS/REACH compliant

- ✓ Two-way communication between your cell phone and the AMA EASY.
- ✓ Internal GPS module.
Optional: external GPS module
- ✓ Low current draw for a longer battery life.
- ✓ Built-in LI-ION POLYMER back-up battery.
- ✓ Possibility to reprogram for use with other cell phone.
